RON HANKS' PRIORITIES

My Fellow Coloradans,

I am the **ONLY** conservative running for CD3, and I'm the only candidate with a legislative record. I fought for our 2nd Amendment Rights, for Election Integrity, and for School Choice Tax Credits for Colorado families. I fought against radical Democrats, and was part of the longest floor fight in Colorado history against their heinous abortion bill.

President Trump can and will win this election because of his stellar record, and because Judas-Joe Biden has sold this country out at the border, at the gas pump, on our private lands, and around the world.

When President Trump wins, he **must** have a Conservative Congress to prioritize **America First** policies, drain the swamp, and exert budget authority over every government department.

That is who I am. That is my mission. Together, Colorado Conservatives will help President Trump **Make America Great Again.**

Respectfully,

Ron Hanks
